LONDON STOCK MARKET RULED STAGNANT.

CONSOLS UNCHANGED ON

THE DAY.

Weakness in Sugar the Feature in the New York Market-Money Continues Easy.

New York, Aug. 27.-The London market was stagnant with quotations very nominal. The tone, however, was not weak and in spite of good bidding for such stocks as Atchison and St. Paul, very little stock was offering. Consols were unchanged on the day and the general market nominally lower. Money showed a slightly harder tendency. Exchange in Berlin and Paris was unaltered. The Chinese news was very indefinite and tended to check trading. English mail advices to hand indicated an ex-

ectation of higher money in New York by

European financiers early in the fall. In the local market weakness in sugar was the feature of the day. The pool gave very perfunctory support and belief that it selling elsewhere encouraged an organized attack by the more important traders. It was said that the supply of raw sugar pending the arrival of the new crop a month hence was not sufficient to keep the refineries going. A good deal of long stock came out in Brooklyn Rapid Transit although one or two efforts were made by insiders to rally it. People's Gas opened rather heavy, but recovered on buying of a better character and a report that the Chicago political element had withdrawn Chicago political element had withdrawn its opposition and that the projected new gas company would be abandoned. Buying in the granger stocks was sufficient to keep them fairly hard, although quotably lower than on Saturday. London did not do 1,000 shares on the day, and the public seemed to be small or marketic. Political consider. to be equally apathetic. Political consider-ations were considered to be checking speculation. Money continues very easy. There was a little covering of shorts in Sugar and the tractions at the close, but the gen-eral feeling was depressed and the threatened coal strike prevented any recovery in rallied somewhat on short covering. The B. & O. selling seemed to come from very

fair quarters. The reported intention of Russia, Germany and Japan to declare war against China is discredited in Washington, There seems to be a dearth of news from Pekin,

which pays better the shipping companies are not likely to bring their rates down to a point where the export of coal in large volumes would be profitable. A prominent authority in the sugar trade says that the American Sugar Company's full melting capacity is 40,000 tons of raw sugar per week. The stock on hand is only 80,000 tons, with no more than 20,000 tons per week arriving, and that this condition may be expected to continue until the middle of October. Crop reports from the West and Northwest upon the whole continue favorable. The borrowing demand still indicates some short interest open.

New York Stock Quotations. St. Louis, Monday, Aug. 27, 1990.
The following shows the opening, highest, lowest and closing quotations on the New York Stock Exchange yesterday. Corrected daily for The Republic by D. R. Francis, Bro. & Co., bonds and stocks, 214 N. Fourth street:

Stocks. Sales. Open. High. Low. Clos China is discredited in Washington. There seems to be a dearth of news from Pekin, but European markets are apparently acting on the theory that no news is good news, and while they are stagnant they are by no means weak. Advices from South Africa show that a battle of some magnitude is in progress, and if Lord Roberts can induce the clusive Boers to stand, there can be no question as to what the result will be, in view of the enormous dispartly in numbers.

There is a good deal of talk prevalent as to difficulties with the coal miners, and it is said that the Elestern roads are laying in considerable stock of bituminous coal in organization being with the coal miners, and it is said that the Elestern roads are laying in considerable stock of bituminous coal in organization of the united hopeful attitude on the part of the united fundament of react, and while there is no doubt that there is something very like a coal famine in Europe, so long as there is coal famine in Europe, so long as there is no piu. The new week made a very encouraging start to-day, business being active and on quite a to-day, business being active and on quite a large scale, but in all other respects the situation was without particular change. The deposits were good and money was in full supply and cheap at 5 to 7 per cent, which was the ruling rate for call and time loans. There was a good and well scattered demand for money, nearly all receives of business men being represented among the berowers, and there was also a good demand from the country.

The clearings to-day were encouraging at \$5,-95, the bulances amounting to \$68,29.

RIVER NEWS.

Rise and Fall of the Rivers. Another Quiet Market and the Day Without Feature.

There was not much life to the security market to-day. A demand was had for Granite-Bi-Metallic and also for United railways, but there was no pressure on either side of the account and the dealings were small. All other stocks and bonds were quiet and nominally without change of any kind.

Granite-Bi-Metallic attracted most attention to-day and was traited in it the extent of 299 shares, the first 296 bringing \$2.2242 and the 199 \$2.25, which was bid at close for 199 or more and \$2.2342 for fifty shares. Stations. There was some demand this morning for Transit stock and United Railway is, and two of the latter sold at \$55, which was advance over Saturday.
